

OSTAR Track Light – OTL1

Excellent replacement for Halogen Track light used in display illumination, exhibition hall, shop house and many others commercial lighting applications. 15W OTL1 can replace 75W or 120W PAR type of track light, saving precious electricity power and reduce operating cost.

Key features:

- Using Osram 15W/20W OSTAR LED, can provide color temperature of 2700K-7000K of high brightness white light
- Using custom design lens, can provide 16 deg and 36 deg Beam angle
- Provide 10 step dimming interface, 5%-100% dimming capable with use with external power supply
- IP20, suitable for indoor applications
- Integrated constant current source power supply, eliminate power supply fluctuation problem
- Different Plastic casing selection for power supply track casing

Material:

Body: Aluminum

Heat Sink: Aluminum

Power supply track casing: Plastic

Light Source:

OSRAM OSTAR

Control Specifications:

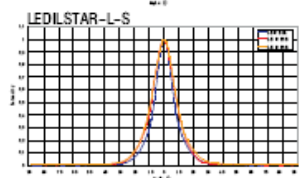

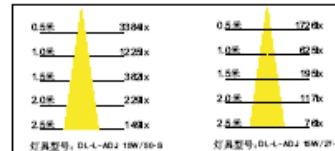

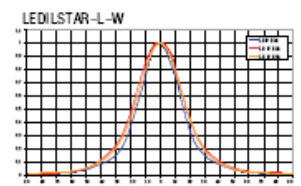

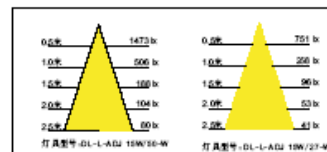

Input: 220VAC 50/60Hz

Output: 700/1000mA constant current

Dimming control: 1-10V dimming control

Interface input

Dimming rate: 5%-100% dimming

Installation Specifications:

220VAC input, standard L,N,PE lines

O!lite

Powered by OSRAM
