

Recessed Light - Decoled WD

Ground recessed LED marker light, single color.
It's ideal for park and amenity lighting.

Key Features:

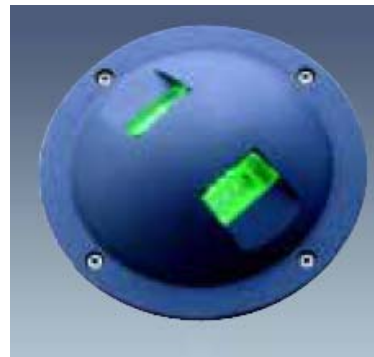

- 5 colors—White, Blue, Green, Red, Yellow
- Low energy consumption, long usage lifetime, low temperature for safety
- Small size, easy to install
- Two pieces of LED produce symmetrical light distribution
- 24VDC input

Materials:

Body : Die cast aluminum

Recessing housing : Polypropylene

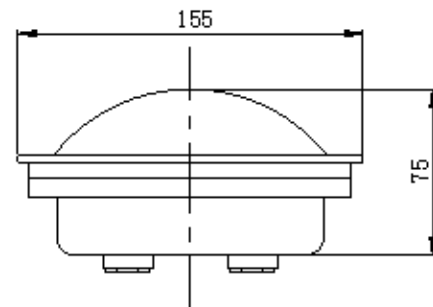

Light Source:

OSRAM GOLDEN DRAGON

Installation:

Suitable for wall or ground recessed installation. To ensure efficient drainage, gravel must be used to a depth of 300mm beneath the housing, and should also be placed around it. 24V DC input.
